

Complete end-to-end document and media shredding solutions for business of all sizes.

Protect your business and family from identity theft.
Experience how our shredding service helps to destroy
your unwanted documents and old records.

Why to Shred ?

Identity theft is one of the fastest growing white-collar crime in the world today. Disposing confidential and sensitive records / documents containing personal information in the trash puts you at risk for identity theft. While a number of new security and safety reforms for disposal of records, paper documents & media has grown exponentially, a single instance of unauthorized access to information could lead to significant consequences from loss of brand or revenue to the loss of market share and more importantly customer trust. A negative PR alone can be a high risk resulting to diverse effect in time, money and future earnings.

To help business and residential keep their private documents and sensitive records away from wrong hands, we offer a better alternate of document and media destruction solutions: Off-site and On-site Shredding, both efficient, secure and affordable. With our state of the art shredding service, you stay assured that your confidential and sensitive documents have been securely destroyed with maintaining highest level of security. Partnering with us for your secure document shredding helps you to gain benefits that enables you to meet the challenges of information privacy & comply with safety standards.

Shredding of documents helps in maintaining departmental safety.

Shredding of documents prevents data leaks and identity thefts.

Shredding of documents protects against industrial espionage.

What to Shred ?

Why to retain old unwanted records which has already crossed retention period ?
Periodical shredding of old records and unwanted documents helps in secured record retention management and saves record storage space.

To prevent identity theft, you should shred anything that has personal information like your name, address, contact details, bank account details and other important information. No need to remove staples, paper clips or rubber bands with our state of the art shredding process. We have mentioned a primary list of documents which you need to shred if they are not valid or a part of unwanted record.

- Invoices and transit notes
- Expired passport and visa
- Documents with PIN and password
- Real estate contracts & transaction
- Customer data and Inventory lists

Off - Site and On - Site Shredding

At SHREDX, we understand the importance of protecting sensitive information for commercial companies and businesses. That's why we offer paper shredding services tailored to fit your specific document usage and retention needs. We offer On-Site and Off-Site as well as one time purges for bulk shredding.

Our secure paper shredding process ensures that all the confidential documents are securely destroyed beyond reconstruction, reducing the risk of identity theft and data breaches. We also provide a certificate of destruction for your records, giving you peace of mind and maintaining compliance with industry standards.

Our document shredding services are trusted by healthcare organizations, legal and law firms, manufacturing companies, financial institutions and many other sectors. We value our client's privacy and keep their personal information secure.

One-Time Bulk Shredding

We also offer one-time purge shredding, a secure solution for companies and institutions that need to dispose off bulk records no longer needed. This also helps in minimizing your record storage space. Using our service, you can be rest assured that your sensitive information such as customer data, financial reports and other confidential documents will be securely destroyed. So whether you're a small business or large organization, our one-time shredding service can help to securely destroy your sensitive documents and prevent from any potential data breaches.

Shredding Process – in 6 easy steps

Step 1

Client generates work order as per quote submitted.

Step 2

Our team arrives with shredder.

Step 3

Material for shredding is handed over to us.

Step 4

Shredding is done under strict supervision.

Step 5

Invoicing is done as per shredding contract.

Step 6

Certificate is issued after completion of shredding.

Your shredded material is combined with material from multiple sources, baled and recycled to make paper and paper products. This way, you get the best of both worlds - information security and environmental protection.

Products

We are associated with KOBRA INDIA which holds sole authorized distribution in India for the sales and servicing of internationally reputed KOBRA brand Shredders, manufactured by ELCOMAN, Italy.

ELCOMAN is one of the largest European paper shredder manufacturers. Its KOBRA brand products, manufactured fully in their own factory in Italy, have a presence in more than 100 countries and are among the best sold products due to mechanical accuracy, innovative design and reliability.
